

## Keep it simple this summer

Dear educators,

Summer schedules fill up fast, but curiosity and learning can happen any time!

PBS has you covered with ready-to-go content you can infuse without cluttering your calendar, including:

- A new episode of [The Look Back](#) on plant domestication
- A look at pollinators and their habitats with *Field Notes on Climate*
- A new PBS KIDS series featuring an awesome Wisconsin kid

Don't forget to sign up to [help shape a new poetry collection](#) this summer.

Happy exploring!

## Agriculture's roots

Native Americans in eastern North America have been cultivating plants for thousands of years. A new episode of [The Look Back](#) explores how plant domestication and trade among Indigenous peoples impacted agriculture and the traditions that continue today. **(Grades 4-9)**

## Bee-ing the change

Our food systems rely on bees and other pollinators to help plants reproduce and support biodiverse ecosystems. Ami talks to scientists, farmers, and community members to learn about [what's putting pollinators at risk and what folks are doing to protect them](#). **(Grades 6-12)**

## Marie in Milwaukee

*America's Awesome Kids* is a new PBS KIDS series celebrating the unique backgrounds and experiences that make America, well, awesome! Meet kids from 26 states, including Wisconsin. [Marie](#) celebrates her Native heritage through Jingle Dress dancing at powwows. **(Grades PreK-3)**

**Behind the scenes with PBS Wisconsin Education**

## Design throughlines

This year's PBS Wisconsin auction runs through June 10. There are thousands of items to bid on, including artwork by Tom Morrison. [Get an insider's perspective](#) on his work from me, his daughter!

Invite children to celebrate *their* families with [printables](#) from *Daniel Tiger's Neighborhood*.
