PBS Wisconsin Education

Don't *leaf* these new resources behind

Dear educators,

Do you fold the transition to fall into your learning plans? We've got you covered with the perfect resources for cooler weather and shorter days.

Fall into the latest *Wisconsin Biographies* story on chef Carson Gulley (and enter a special giveaway).

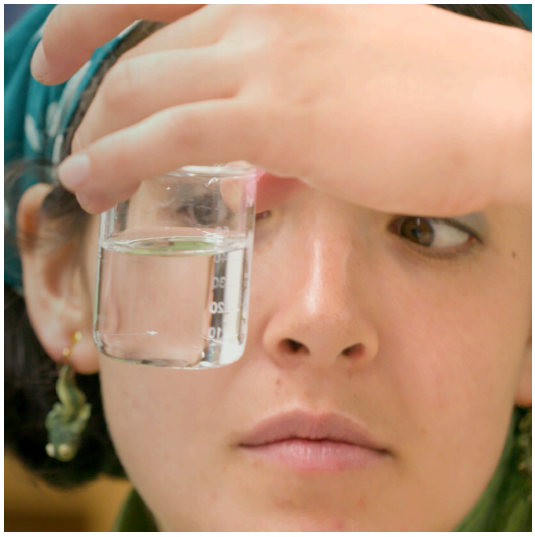

Then, leap over to *Field Notes on Climate* for a new resource on amphibians and phenology. Or, explore science and media literacy together with a new interactive lesson.

Happy exploring!
Tawny Morrison,
Education Communications Specialist

New *Wisconsin Biographies*

Carson Gulley made history as one of the nation's first Black cooking stars. Follow his journey from the rural South to becoming a chef, educator, and activist in Wisconsin. Then, enter our Cooking Up Curiosity giveaway for a chance to win PBS swag and educational goodies! **(Grades 3-6)**

Pondering phenology

Leapin' lizards? How about freezin' frogs? Check out the latest resource from *Field Notes on Climate* to see how scientists are learning from amphibians and how everyday folks are working to protect them and their environments. **(Grades 6-12)**

Science + media literacy

Sweater weather is here! But what if your favorite fall staple is falling apart? Use our new interactive lesson on PBS LearningMedia to explore textile science, consumer awareness, and clothing care while considering who and where we learn about these topics from. **(Grades 3-8)**

Behind the scenes with YOU

Two-second survey

How familiar are you with PBS Wisconsin Education's educator support materials? Take a single-question survey to let us know.
